

Please do NOT allow the new LPFM radio broadcasts to take priority over current FM translator service. This FM translator service is how San Antonio gets broadcasts from K-LOVE Christian radio. I listen to K-LOVE every day, and it would be devastating to me to lose it. Sometimes, K-LOVE is all that keeps me going. Without this encouragement, my life would be miserable. K-LOVE provides this encouraging service to the entire community. People have called in to the station, relating how K-LOVE helped them through really tough times, including thoughts of suicide. Without K-LOVE, people may not get through these times. We need it. I need it. Please do not allow the LPFM service to replace FM translator service, which would force K-LOVE off the air!
